PROFESSIONAL SUMMARY

Data science graduate student and IT professional with experience in Python, SQL, data analysis, relational databases, AWS cloud services, technical support, education, and community-facing programs. Skilled at translating business and community needs into practical data, technology, and training solutions. Brings a multidisciplinary background spanning analytics, network administration, public service, health outreach, and teaching, with strong communication skills in English, Afaan Oromo, and Amharic.

TECHNICAL SKILLS

Data & Analytics	Python, SQL, pandas, NumPy, Jupyter Notebook, Excel, data preparation, data analysis, data visualization, statistics
BI & Databases	Power BI, Tableau, relational database design, SQL queries, ETL concepts, dashboards, KPI reporting
Cloud & IT	AWS EC2, S3, RDS, IAM, VPC, load balancing, Auto Scaling, CloudFormation, hardware/software support, troubleshooting, networking
Tools & Other	GitHub, Streamlit, Microsoft Word, PowerPoint, digital literacy training, customer support, documentation

SELECTED PROJECTS

Youth Substance Use Data Analytics Project | University / 2026

Portfolio Project

- Analyzed youth substance-use patterns in Minnesota using Python and Jupyter Notebook; organized data for analysis and communicated findings through a portfolio-ready project.
- Applied data preparation, exploratory analysis, and visualization techniques to examine age-related patterns and community risk factors.

Youth Prevention & Support Database | Database 2025-2026

Management Project

- Designed a relational database with entities for youth, programs, counselors, sessions, participation, and outcomes; translated an ERD into SQL-ready table structures and queries.

AWS Cloud Infrastructure Projects | Cloud Computing 2025

Coursework

- Built AWS environments using IAM, S3, EC2, VPC, public/private subnets, NAT, bastion access, RDS Multi-AZ/read replicas, load balancing, Auto Scaling, and CloudFormation.

Python Point-of-Sale System | Python Coursework 2025

- Developed a console-based POS application with inventory handling, sales and returns, receipts, cash payments, and change calculations.

PROFESSIONAL EXPERIENCE

Family Coach / Family Navigator | Oromo Community of 2024-Present

Minnesota | Minnesota

- Support youth and families with goal setting, education and employment planning, referrals, case documentation, and navigation of community resources.
- Use culturally responsive communication and multilingual support to help families understand services, complete applications, and follow through on goals.

Community Health Worker | WellShare International | 2020-Present

Minnesota

- Provide community outreach, health education, referrals, translation assistance, insurance support, and connections to social and health resources.
- Support community education on mental health, substance-use prevention, healthy living, and access to services through presentations, outreach, and one-on-one assistance.

IT Support Specialist Training / Internship | Project for 2025

Pride in Living | Minnesota

- Completed hands-on training in computer setup, troubleshooting, hardware and software support, networking fundamentals, customer service, and digital tools.
- Assisted with practical technical-support tasks and user-focused problem solving in a training/internship environment.
